Create Project

Survey link: <http://www.linktomysurvey.com>

Provide the survey code here:

You must ACCEPT the HIT before you can submit the results.

Edit Project

Specify the properties that are common for all of the HITs created using this project.

1 Enter Properties 2 Design Layout 3 Preview and Finish

Project Name: This name is not displayed to Workers.

Describe your HIT to Workers

Title

Describe the task to Workers. Be as specific as possible, e.g. "answer a survey about movies", instead of "short survey", so Workers know what to expect.

Description

Give more detail about this task. This gives Workers a bit more information before they decide to view your HIT.

Keywords

Provide keywords that will help Workers search for your HITs.

This project may contain potentially explicit or offensive content, for example, nudity. [\(See details\)](#)

Setting up your HIT

Reward per assignment

Tip: Consider how long it will take a Worker to complete each task. A 30 second task that pays \$0.05 is a \$6.00 hourly wage.

Number of assignments per HIT

How many unique Workers do you want to work on each HIT?

Setting up your HIT

Reward per assignment

Tip: Consider how long it will take a Worker to complete each task. A 30 second task that pays \$0.05 is a \$6.00 hourly wage.

Number of assignments per HIT

How many unique Workers do you want to work on each HIT?

Time allotted per assignment

Maximum time a Worker has to work on a single task. Be generous so that Workers are not rushed.

HIT expires in

Maximum time your HIT will be available to Workers on Mechanical Turk.

Auto-approve and pay Workers in

This is the amount of time you have to reject a Worker's assignment after they submit the assignment.
